Paragon Testing Enterprises recognizes its responsibility to provide test takers with disabilities and health-related considerations full access to any CAEL Assessment through reasonable and appropriate accommodations.

Individuals with documented disabilities that will impact their ability to take a CAEL Assessment under standard testing conditions can request accommodations. As Paragon Testing considers each request on a case-by-case basis, submit your request prior to registration. Please submit your request to specialaccommodations@paragontesting.ca. We cannot guarantee accommodations for any registrations made prior to approval from our office.

Medical documentation must accompany any Special Accommodation Request Form. This medical documentation can come in the form of a formal written medical report or a detailed letter from a medical professional qualified to diagnose, treat, and provide relevant accommodation suggestions. Medical documentation should not be any older than five years. The report or letter must include the following:

- Date of initial examination and any subsequent follow-up.
- The nature of the medical diagnosis/disability.
- A detailed explanation of the functional impact of the disability.

- Relevant accommodation suggestions, along with a detailed rationale for each accommodation requested.

Attached to this document is the Guidelines for Medical Evaluators. Please provide your medical professional with these pages as it may aid them in drafting your medical documentation.

Please submit the Special Accommodation Request, medical documentation, and any subsequent documentation at the same time. To speed up the process, please attach the Request Form and Medical Documentation as two separate documents rather than one large one. GUIDANCE FOR MEDICAL EVALUATORS — I

Paragon Testing Enterprises recognizes its responsibility to provide test takers with disabilities and health-related considerations full access to any CAEL Assessment through reasonable and appropriate accommodations. In order to arrange these specially accommodated tests, Paragon relies on the aid of certified medical specialists to recommend the most appropriate accommodations.

What is a CAEL Assessment?

The CAEL Assessment is a 2.5 hour Assessment of an individual's reading, writing, listening and speaking proficiency. The CAEL Assessment is comprised of two parts. The Written Assessment which contains the Reading, Listening and Writing test components. And the Oral Language Test which contains the Speaking component.

The Written Assessment is a paper-based, hand written test. Test takers remain seated through the duration of the test and may not interact with those around them. There is no food or drink permitted at the test takers' desks. While we do permit bathroom breaks, test takers will not be allotted extra time for these breaks. The Oral Language Test is a computer-based test. Test takers will be provided with a headset and a microphone. Test takers are required to listen to prompts in order to answer test questions orally. There is no food or drink permitted at the test takers' computer stations. Test takers are encouraged to use the bathroom before or after the Oral Language Test. Bathroom breaks during the test are discouraged as the Oral Language Test software cannot be paused and will continue to run.
